

Creatick[®]
Creative Collection

High Strength

Perfect Finish

Better Quality

Explore the Works of Art

In the cutthroat world of today, the importance of decor in making an impression that lasts a lifetime cannot be overstated. In addition, when it comes to the design of the interior, architectural hardware is an essential component.

With Creatick, we are striving to usher in a new era of innovation by utilising cutting-edge finishing techniques and superior quality products.

We design, develop, and offer an innovative selection of cabinet handles, main door handles, and concealed drawer knobs along with all other accessories. We have established our own creative studio and a manufacturing plant that is well-equipped with modern machinery. Our products are available in a wide variety of shapes, sizes, and finishes, making them suitable for a broad array of uses.

At the moment, our primary focus is on developing handles of the highest quality that are versatile enough to complement any kind of decor. Additionally, we are enriched with insights into the trends that are occurring in the market.

Today, Creatick has established itself as a reputable brand that is well-known for the quality and dependability of its products. We not only have our fingers on the pulse of the requirements and trends in the market, but we also feel that we should be the ones to set those needs and trends. As a result, we are constantly coming up with newer and more unique designs and finishes for the handles.

Each one of Creatick's masterworks is a work of art that not only reflects the status and preferences of its owner but also was created with the intention of bringing the wearer joy.
